The Case for Senator Bilbo

(THE INDIVIDUALIST, Danville, Virginia)

Since results of the Mississippi primary were announced last summer, a flock of people seem to have done little else but try to dig up something disreputable about Senator Bilbo, in hope that something can be found that will serve as an excuse for throwing him out of the Senate; all because the Jew Dealers need so desperately, to show at least one instance where they have made good their boast that they can purge from office and influence, any person who ventures to oppose their scheme to rule America.

Having been for many years a politician; and withal a Nudeal politician in an administration that developed near-treason to a point never before reached in the United States; few will doubt that there are some things in the career of Senator Bilbo that he would be well satisfied to have forgotten. But it matters little what the smearers may dig up; John Q. Public will see it as just another stab at Bilbo, because he said right out loud, that he would do all he could to keep Mississippi a white man's country. So, if Bilbo is to be thrown out of the Senate, it will be much better to use honest words in stating the reason for doing it. Let it go on the record that the unpardonable sin in a white man is the temerity to say that he considers his own race first.

It is described as entirely commendable when a Jew perjures himself, or betrays the nation that shelters him, when it will benefit foreign Jews. Others are always ready with excuses for the Negro who riots, rapes, and commits sabotage against the nation in time of war. But the lowly white man is worse than a thief and traitor if he hesitates to starve his own children in order to help the colored brothers who would kill him if they could. People who do not give first thought to their own children will soon disappear from the earth, and make room for people who do not flout the first law of Nature.

Every newspaper reports another move by either Republicans, or the Jew-Deal Communist Bund, to throw out Bilbo. Is it a fact that Harlem now rules the Nation? If so, the people down south long ago discovered a simple remedy. It is just the white primary. If New Yorkers will adopt it, it will solve some of their worst problems.

Ye printer would remind his Republican friends that Dixie still has 148 electoral votes, & to keep driving them back to the radicals, is to invite defeat in every close election.

Unseating Bilbo is more complicated than most people think. He is a member of the Senate until his successor is elected and qualified. It takes a two-thirds vote to expell a member, and it is doubtful that, even with the help of Republican renegades, the Jew Dealers can muster that many. Why wrangle over it when other problems are pressing?

There are many people in Mississippi who would prefer another Senator than Bilbo. But unconstitutional outside interference has forced them to elect Bilbo rather than risk white disunity. If people of other states want better Senators from Mississippi, the way to get them is to let Mississippi people conduct their primary elections in their own way, instead of trying to force the white majority to let the black minority dominate elections by swinging a balance of power between white factions. The state has authority to decide who shall vote, but neither state nor nation has any just power to decide which group shall wield the balance of power.

Mexican Race Question in California

SAN FRANCISCO, Dec. 9,—The question of the legality of segregation of Mexican children in public schools of Orange county, California, came up today on appeal by the **Westminister School District vs. Gonzalo Mendez,** of Santa Ana, et al, before the U. S. Circuit Court of Appeals. Gonzalo Mendez had entered U. S. District Court in Los Angeles and won a decision from Judge Paul J. McCormick against the school board on the grounds that they had violated the 14th Amendment to the U. S. Constitution which prohibits the states from discriminating against American citizens, when the board segregated **children of "LATIN language ancestry"** in schools apart from those frequented by children of **"ENGLISH language ancestry".** Judge McCormick accepted federal jurisdiction over the case and ruled for Mendez.

The school board appealed on the grounds that federal courts had no jurisdiction because the state of California itself protected children against any and every type of discrimination, hence the 14th Amendment was not violated and Mendez should have brought his case for adjudication in the state courts.

In the course of argument it developed that Mendez had made fake allegations when he charged discrimination along lines of **LATIN language,** as a subterfuge for the fact that Mexican children were segregated on lines of **race and health habits.** The school board considered it better to give the Mexicans the **same facilities in every respect** as far as school education was concerned, but because the Mexicans were not as clean in their physical habits as the white children, they separated the two and Mendez did not care to bring out that factor as the cause of segregation in his allegations.

The court ordered the matter submitted for later decision.

Where Westbrook Pegler Has Failed

By C. LEON de ARYAN

I have before me the "Dispatch", as Pegler calls it, dated NEW YORK, Dec. 16 (Special)—on the Columbians and the Non-Sectarian, but thoroughly Jewish (in the worst meaning of the word) **Anti-Nazi League,** of New York.

C. Leon de Aryan

In that "Dispatch" Westbrook Pegler calls attention that the Columbians are "petty" in comparison with "the outfit which arranged the expose" if one inspects the degree of danger resultant from their respective activitites. Writes Pegler:

"That organization is the Non-Sectarian Anti-Nazi League of New York. It was organized in 1933 to boycott Hitler's Germany and, by other means, to oppose the rise of Hitlerism. In the years since, it has become, by its own boast in the Atlanta case, a secret private espionage system. It plants its agents in positions of trust in private employment to filch confidential information and betray it to the league and to photograph private correspondence and other documents for any purpose that suits the individuals who run the league.

"It is reasonably comparable to the German gestapo and the late Russian G.P.U. It has no official equal in the agencies of the United States government, which even to this day do not include a "secret police" service of this type. Not even the F.B.I., the intelligence departments of the army and navy or the authorized investigators of legally qualified committees of congress have the right to plant secret agents in the offices of private groups, whether political or fraternal, to photograph or copy their private papers and to make public information obtained in this way."

Now I ask: where was Pegler during the years preceding the war when the Jewish anti-Nazi League **fomented war in the U. S. A.?** Why did Pegler not speak up then? Why did he not join with Lindbergh in denouncing **"the British, the Jews and the Newdealers"** for fomenting war?,

Now after the horse is stolen Pegler "dares" expose the nefarious activities of the SANHEDRIN's own G.P.U. in the U.S.A.

Pegler was in San Diego during the time while these Jewish criminals persecuted me and had me indicted for "sedition" in Washington, D. C. when the Los Angeles federal grand jury twice refused to be their stooges. Pegler received **all the information necessary to expose the Jewish Octopus** which is a million times more "dangerous" than the Columbians, and the Silver Shirts put together, to American liberty and rights of our citizens **and the world.**

Pegler's host in San Diego offered to give him the detailed low-down. I wrote a long report for Pegler, but **where was Pegler BEFORE and DURING the war?**

Pegler was in the camp of the SANHEDRIN shouting for the kill!

But it was that same Jewish G. P. U. that produced the war. **There is absolutely no differference between it, the Gestapo and the mideval INQUISITION.** Hitler's Gestapo was organized by the self-same SANHEDRIN to enslave the Germans and drive them to war, as the "Anti-Nazi League" with its avowed and publicly advertised scope of 1933 "to boycott Hitler's Germany **and, by other means,** to oppose the rise of Hitlerism".

Yes, the SANHEDRIN bribed Hitler to enslave the Germans, regiment them, to persecute the Jews that world sympathy be aroused for a "holy war" against the "monster Hitler" while the very same world-cartel was in cahoots with the German "Farben" and dyestuff cartel, as was disclosed about Standard Oil and "Farben".

I dared expose this Jewish propaganda to get us into the war by misrepresenting the German people as such and their aims; by making the world hate "Aryans" that the Jews may control all of us, and the Jewish G. P. U. put the boycott on me as a "Nazi"; — can you imagine it!

C. Leon de Aryan, — a Nazi!

That is the trouble with Pegler, Fulton Lewis, Upton Close, Col. McCormick, Gerald Smith, Elizabeth Dilling and the host of "Nationalists". **They all believe in MURDER** when the Jews work them up sufficiently for **"democracy".** Yet, all of them pretend to be "Christians", still they refuse to follow the Christ up Golgatha but not shed blood, rather have their own be shed in atonement for the sins of the criminal world.

And because Pegler, Lindbergh and the hosts of them prate about being "Christians", yet condone **MURDER as an international policy of settling disputes, they all are in the Devil's own** army, denouncing the G.P.U. only when it becomes **convenient for the SANHEDRIN** to be rid of its own obsolete tools, hence the SANHEDRIN had the G. O. P. elected this year because it now wants to **CONSERVE its loot** and the G. O. P. are the conservatives, while Pegler helps break up the "radical" groups which have outlived their usefulness to the SANHEDRIN.

Upton Close Spoke In San Diego

By FRED de ARYAN

I managed to obtain a reasonably good seat at the Plata Real room of the U. S. Grant Hotel, last Thursday noon, Dec. 12, to hear Upton Close address the Republican Women's Club. After some accordion music, during which everyone strolled in, and introductions of civic officials and Republican celebrities, the first course was served and the ever thickening fog of cigaret and cigar smoke rolled about, making me increasingly sicker throughout the affair. I began by refusing the butter on my roll and the meat broth, followed by refusal of the main dish with a request for a vegetable plate, and refusal of the ice cream for dessert; someone must give the waiters a provocation for odd-ball stories anyway.

Mr. Close began with praises of the Nov. 5 affair with a few witty remarks, and then proceeded to relate a bit about his life and family. He plowed the prominent New Dealers, past and present, into the ground, constantly pointing out the new Deal's tendency toward Marxism. He elaborated upon the distortions of terms that had previously been respectably in use, such as "democracy", "freedom", and "bargaining" (collective). "Shove a gun in the employer's ribs, make him raise his hands, and then fleece him. That's the way labor 'bargained' with their employers under the Wagner Act", said Close. Of course he riddled the OPA and bureau 'controls' generally, and called the New Deal a bastard administration, fort their corruption of their obligations in government.

Close gave a brief outline of Marx's life followed by a long discourse on the meaning of Marxism and its methods, inferring that all socialized economies were essentially Marxist—which means Britain now, although he didn't say so. The basic method of Marxist operation is as follows: get the employer and laborer to hate one another to the point of incompatibility and violence; let the laborer think he is big stuff and permit him to try to take over industry; he'll find out that he is too dumb to run it, and then Marx offers his beneficent services and gains control, constantly pointing to and enlarging upon the ignorant worker's inability to cope with the intricacies of industrial and civic life. The machine is the vital factor making this possible.

It works in the latter fashion if a large enough

THE GREAT CRIME THRILLER WITH THE AUDIENCE AS THE VICTIM

group of armed bandits cannot be mustered to overthrow the government. Close illustrated Marx's greatest problem: the U.S.A.—**here the Constitution has a provision by which the citizen has a right to carry firearms;** estimating fifty million firearms held by private persons thruout the U. S., it would be difficult to overwhelm the masses here, Close surmised. Russia had practically no mechanical weapons along with Italy; Germany was much more advanced in this line, but there, limitation of possession began in Bismarck's time. Although Close showed that the 'kulaks', or land-owning peasants, had their land taken away from them when the Communists took over complete control in Russia, after being given the land in the Revolutionary grab, Close did not illustrate minutely the atheistic, deceitful, treacherous, end-justifies-the-means methods of gaining control—the outright lying and taking of false oaths practiced by Newdealers.

The speaker showed that the **Number One danger today lay in the present public school system;** the children, knowing nothing and discussing political matters seldom at home, are fed the red line in school without blinking. I remember when I was in school that the feeling was anti-Russian and pro-British as could be, and **we were being shown how the British were really the ones we owed our Constitution to,** and we should cherish their constant friendship and good will. Close showed now, however, that in a Hollywood high school, where his nephew went, the Russian Constitution is studied, that the teacher claimed it is the superior constitution containing all the good features constitutions contain. The U. S. Constitution was not studied as yet, since the Red Constitution had all of the good features with none of the bad attractions. The kids of course were not told that there is only one party in Russia, the Communists, and that all other parties are discouraged in rather forceful fashion. Close also made plain the fact that school-teachers are under-paid generally, though not in California (but look at the California schools.) A fact he did not clarify was that the red tape of the school systems, teaching requirements and methods of selection of teachers soured all scrupulous and idealistic people on a teaching career; **people with real guts who teach what they think should be taught are discouraged promptly.**

Close described "anti-Semitism" as rather loosely used, and added that Arabs, some Egyptians and Armenians are also Semites.

The Number Two danger, Close delineated, lay in the present strife of labor and capital which might result in overthrow of the capitalist by the armed laborer, but he regarded this as rather unlikely in view of the immediate circumstances.

Lastly, the Republicans now have their chance. They must not succumb to the first weak spot: the one whereby the Pink tells you that all the old nasty New-Dealers have been cleaned out of the government's rat-holes, that the Republicans have done a wonderful job, and that everything is smooth. Close said that we must keep our eyes open and be alert to all the thorough cleaning up of the government—not to be lulled into a state of security when the thing is half done.

He closed his speech somewhere along in here, so that I, groping about mentally, made a mad dash for freedom into the clean fresh air away from the smell-hole. First the politicians sit at the luncheon table, gorge and shovel in the carcasses, light up a cigar and drug themselves with coffee, then proceed to listen to someone tell them all about their troubles of government; but they're happy now; they've kicked out those nasty New Dealers and as long as it stays that way things will be fine.

MY FACE IN THE PEGLER STORY

I was away from San Diego when the printer set the Pegler article on the linotype. He could not find my current picture in the morgue so he grabbed the one of 30 years ago. Hence the youthful Kosti—for Christmas.

A new congressional report on immigration reveals that 70% of all the immigrants coming into the U. S. now are Jews. This explains why those who lead campaigns to limit immigration are frequently branded as anti-Semitic.

A Christian Christmas ?

Of course Christmas is Christian! It celebrates the birth of Christ. But Christianity is not a creed. It is a pattern of life with a dynamic behind it sufficient to make it real and vital and successful.

One World! How much more that means now than before or during the war! "There is an element of imminency and immediacy about the present world situation which is without parallel."

Christmas is this year a call to world charity, world courage, world faith. To try to confine its blessings to a part of the world is to destroy its power and to caricature its Founder. The new civilization must have a Christ-like basis. The challenge with which we are now faced may restore to us that manly humility which alone gives power. It may bring us back again to the true Christmas message of "peace on earth, good will to men."

That faith is an anvil which has worn out many hammers, "Rust will crumble a metal; hammer blows will only harden it." This sacrificial sharing and child-like spirit makes Christmas worth while; this drama of manifest love will help fuse all nations on the anvil of faith. This and this alone can bring peace. May Christmas, 1946, be of this nature to a needy world.

Vegetarian Internationale is Jewish-Mongrel not Aryan-White

Dear Fred:

In last week's issue of our paper you exercised your prerogative, as owner of THE BROOM and acting editor in my absence, by adding a footnote to my letter in reply to your's on the nature of the Vegetarian Internationale group, meeting in Los Angeles at the Shoreham hotel. Therein you said that "there are more Gentiles in the racket than Jews, chiefly because the Jews are in the minority", hence the health racket is exploited by more Gentiles than Jews, even in L. A.

I really enjoyed your come-back because it proves my point. You are a product of Jew-controlled, socialized, public school education, which is just as bad as politically controlled state-religion, because in place of the truth you are fed propaganda "scientifically" and so you imagine that "majority rules" and because Jews are in the minority in the V. I. you say they don't prevail.

The fallacy of majority rule is self-evident. "There is no such animal" where equality prevails. Society is linked together as in a chain and the weakest link prevails. The chain is no stronger than its weakest link. And the weakest link is not in the majority, yet the whole chain can accomplish nothing beyond its weakest link, thus **it rules and ruins the whole chain,** like the rotten apple in a barrel-full. The rotten apple prevails.

You yet have to learn to understand the nature of the Jew. A Jew is a **JEW.** Period. He is not an American, he is not a white man, he is not a German, not a Frenchman, not an Englishman, not a Pole or Russian, he is a Jew, a peculiar, special creature of his own who stands out and apart and whenever you try to accept him on equal terms in your society, you don't accept him **on your terms but on HIS TERMS: he prevails,** like the weakest link in the chain or the rotten apple in the barrel.

Now this is something for you to think about.

There is so much said nowadays, as there always was ever since the Jew crystallized as a peculiar creature in Palestine, Egypt and Russia, that it becomes necessary to tell what makes a Jew.

A Jew is a fellow who makes it his business of life to serve two masters, pretending to serve God, while having no FAITH in divinity, **imagining that he can use it** to his own materialistic purposes. Moses embodied this trait in his own person and had it codified in the Pentateuch as the prototype of the Jewish religion. He married a Lybian woman and denounced his own sister Mirriam as a "leper" when she objected to this mongrelization in the family by refusing to recognize the colored woman as an equal in the household. Moses cites PRINCIPLE as THE LAW and then proceeds to rationalize around it to give himself and his followers the **license to violate the Principle.** He was a murderer from the beginning and there is no truth in him.

Hence a Jew is a Mosaic follower who pretends to serve God, while in fact imagines to be smart enough to make God serve him. The Jew is a materialist clothed in the pretense of holiness while doing his devilish work. A perverter of all principles of the true religion. Now a Jew is either a Jew or he is not. And a Jew who rejects Moses or the example of Mosaic duplicity, is no longer a Jew. Hence as long as a Jew lays claim to being a Jew he is a JEW. **Period.**

Jesus, as their Messiah, their Zoroaster or Prince of Peace, came to Jerusalem to help the breed redeem itself because the mongrels have a whole lot of Aryan blood thru intermarriage. He showed them the way to redemption and salvation. But once they turn their face away from Moses and duplicity, murder and devil-worship of licentiousness as an adulterous generation, they are thru with Judaism for good, for they cannot continue to serve two masters.

In the V. I., you, too, become tainted with belly-health worship, for they don't worship God there but the health of the belly. **Healthy animalism is the goal** not fulfillment of spiritual law. To have fulfillment of spiritual law, which incidentally brings perfect health of the body in its course, you cannot accept the Jew on terms of social equality. The moment you do he prevails. That is why I object to their rule in the Mazdaznan group also. Love, KOSTI.

Mankind United "Sedition" Case

SAN FRANCISCO, Dec. 9,—Arthur L. (the Voice) Bell, et al, appeared this morning here before the U. S. Circuit Court of Appeals in their petition for reversal of the verdict of "guilty" in the "sedition" case entered by U. S. District Court Judge Leon Yankwich in Los Angeles. Attorney A. L. Wirin argued for the petitioners on the grounds that the FBI had no warrants for searches and seizures at the time of the arrests when they carted away truck loads of "evidence" from Bell's residence and that of other "seditionist" members of Mankind United, and the FBI ransacked private residences under the pretext that they were **searching for "instrumentalities of crime",** meaning the literature published **before Pearl Harbor.** The FBI had been looking even in the garbage cans for "evidence", and taken away $10,000 in cash.

According to Wirin there is a clean demarcation between powers of FBI agents to take along "instrumentalities of crime" and the denial of their authority to search for evidence and seize it under color of lawful arrest after a Grand Jury indictment. Basing his argument on statements of the trial judge that the seized documents were "evidence" and not "instruments", Wirin requested that the case be reversed on the grounds of illegal search and seizure, since without it there would have been no "evidence" for conviction.

Attorney Russell E. Parsons argued that no proof of sedition had been adduced at the trial whatever. That it was a clear miscarriage of justice in that Bell and associates had at no time advocated sedition against the U. S. but had repeated the very things said in Fortune Magazine, LIFE and in the teachings of Jesus Christ against war as such, not the particular war II of the U. S. against Germany and Japan. To prove his argument he read from Fortune Magazine:

"March 1934, page 53, ARMS and the MEN. ——According to the best accountancy figures, it cost about $25,000 to kill a soldier during the World War (I). There is one class of Big Business Men in Europe that never rose up to denounce the extravagance of its governments in this regard—to point out that when death is left unhampered as an enterprise for the individual enterprise of gangsters the cost of a single killing seldom exceeds $100. The reason for the silence of these Big Business men is quite simple: the killing is their business. Armaments are their stock in trade; governments are their customers; the ultimate consumers of their products are, historically, almost as often their compatriots as their enemies. That does not matter . . . . . "

At this point Justice Clifton Mathews interrupted Parsons, shouting in an irritated voice: "I don't care to listen to your reading from Fortune magazine. Go on with your argument if you have any."

Parsons stood his ground saying that his argument was stated in the very things he was reading to show that Bell did nothing that Fortune magazine had not been doing also, as well as LIFE and others. Mathews shouted him down again but Parson did not budge. The atmosphere was charged. Justice William Denman, then, thanked Parsons for bringing out that point saying he had not known that Fortune magazine had also published it and that this information had considerable bearing on the case. Then Mathews subsided.

William Strong, assistant U. S. attorney, argued that the FBI had authority to seize "instruments" of crime, in this case even the private papers of Bell and his wife and to search for such during five hours, when Bell was held a prisoner in another room and could not see what papers were taken. Strong asserted that Bell was not preaching against war, **but was committing a FRAUD upon his audience to SELL BOOKS to 200 million people at $2.50 per book,** which would give him half a billion in cash, **exploiting their FEARS of WAR and POVERTY** to get money from them.

Justice Homer T. Bone stopped Strong by asking whether any fraud had been proved at the trial. Strong said "No" and Bone asked how the sale of books by religious organizations could constitute fraud, millions of books are sold yearly under conditions described by Strong as "fraud".

Strong, then, took recourse to mentioning that an Italian waiter had testified at the trial, having served a "highball" to Bell and his wife shortly after Pearl Harbor in a San Francisco restaurant and Bell is to have said on Dec. 10, 1941: "I have been working 10 years against war, **drink to Pearl Harbor, somebody should start a fire under FDR."**

The court took the arguments under submission, reserving decision for a future date.

When confronted with the alleged testimony of the Italian waiter, Bell told our reporter that it was not a highball, but a grenadine punch, a soft drink which he favors, that was usually served him at that restaurant in **tall highball glasses,** and that the waiter was under surveillance by the FBI as an Italian at the time of the war and lied to please the FBI and curry favor. Bell said that on Dec. 10 he and his wife were in southern California and the whole testimony of the waiter was fabricated for his own ends with the FBI.

Bell has been charged by Chester C. Cook and others with being a Jew because he has an olive skin complexion. Bell says there is no Jew in his ancestry. On the father's side he is Presbyterian English, on the mother's side he is Latin (Fontaine, France) and somewhere in that line they stem from the Basque country, hence his complexion as a throwback.

Glendora C. O. Strikers in Court Jan. 3

Dear Dad,

Our trials have been definitley set for Jan. 3, 1947, 10:00 A. M. The compromise negotiations with Selective Service and the Department of Justice did not accomplish anything. I, personally, was glad that this happened, along with a few others, for at least I had decided in my own mind not to accept any compromise.

Wirin was able to secure this additional delay on the grounds that up until the last minute the case seemed likely to be settled out of court, and therefore he had not made adequate preparation for an immediate trial.

Francis Heisler, an ACLU attorney from Chicago will join Wirin in the case. Behre and Atherton, the two transfer refusers, will be tried on Jan. 3, 10: A. M.; and the rest of us will go on trial after their case is over.

I enjoyed your analysis of labor strife as related to the basic economics evil, failure of society to collect full equity from land values. However, strikes may even exist in such a society where full land rent is collected if labor or capital chooses to become unscrupulous.

Another source of economic unrest which may contribute as much or more to the average man's pecuniary discomfort is the enormous quantities of second-hand foodstuffs which he produces and consumes. Animal foods are the most expensive and wasteful food products we have. An illustration I recently noticed was in studying the production of soy-bean milk. Eight pounds of soy-beans fed to a cow will yield one gallon of milk while eight pounds of soy-beans sent thru this particular plant will yield 8 gallons of soy-bean milk of equal nutritional value sans tuberculosis, undulant fever and other possible carriers. Love, DAVID.

Dear Sirs:

I am also herewith enclosing $10.00, $5.00 for one year's subscription to the Broom, and $5.00 for Defense fund for Joan McBride!

Thanking you in advance, yours, — — J. G. E.

* * * *

Dear Kosti:

I was mighty glad to have two talks with Joan, to read the indictment and your letter which she had just received a day or two before.

I think your idea for her to act as her own attorney would be a good idea if she had a little more experience, stability and the know-how, but I fear she is not up to it and could too easily be maneuvered into irreparable blunders.

After hearing her ramble on about what happened, neither do I share your opinion that conviction is more or less certain. As I see it, if she goes on the stand and rambles on in her earnest way, I would think it would be fairly reasonable to expect at least a hung jury. That I think is what the prosecution is afraid of and why they are so anxious to have her plead guilty which she should not do in any event no matter what is promised.

You could help a lot by talking with her and boosting her morale—helping her to get in mind what points to stress and how. She should bring out that she didn't really know that she was committing any crime, that she has no consciousness of having done wrong, morally or otherwise, that the war is over, that she was not in any sense giving aid and comfort to the enemy as there was no enemy, Germany having been defeated and dismembered.

Sincerely, your REPORTER

* * * *

Our reporter friend tells us some good points but misses the main issue after having read the indictment. It says there that **the German Prisoner of War was being held in conformity with the Geneva Convention which is yet in force and the USA a party to it.** But the Geneva Convention was torn into shreds at Yalta and Potsdam when FDR and Truman agreed to parcel out P. O. W. as slave laborers. Hence Joan helped the P. O. W. to hide and escape that fate. That's a matter for the Supreme Court to pass on whether a citizen is not bound to keep the Geneva Convention and protect prisoners of war against its own government when that government violates the **laws of humanity,** as was decided at Nuernberg when Nazis were told that it was their duty to oppose the Nazi government whenever it violated the **laws of humanity.** This case is too important to treat it as a personal matter of Joan, just to get a hung jury. It's a matter of **international principle** and whether our presidents have the power to break the Geneva Convention to suit their political schemes.

Dear Kosti:

First I must thank you for all your letters, papers, the $11 I received the other day and today the beautiful box of fruit from California.

Trudy and I just opened it and are enjoying it immensely. We just returned from work. It is very cold out and feels good to come into a nice warm room. We are both sitting on the bed writing letters with the box of fruit between us. Our brother will be over soon and will help us eat some—I will give him your message. Thanks, Kosti dear, for the nice gift and all the good suggestions.

Well, I finally found an attorney who I think will be allright. He has confidence in himself and I think is honest. As you know the trial date is set for Jan. 7.

In your letter you expect me to come to L. A. for the holidays. I went to see the bondsman and got permission yesterday. My attorney may need me here, so I have to wait and see if he can get a continuation.

My daughter Vivian wants to help with the expense of travel and God knows when I will be able to see California and my folks there again.

If I do come I hope you will be able to visit there too. Remember the nice dinner we had with David and Fred last New Year's at Fred's apartment in L. A.? I sure enjoyed it. Hope both of the boys will be home with you for the holidays. Give my regards to them and family.

Please convey my good wishes to the readers of THE BROOM, especially to the kind friends who contributed to my defense. God bless them for it and I pray God will soften the hearts of those who are responsible for all the suffering inflicted on the poor people of Europe and all over the world, that real meaning may be put into those beautiful words "Peace on earth, Good Will toward men"; I am sure this includes the Germans, too.

I thank God that I have a friend like you. Hope we will meet again soon. Until then, best wishes and good health.

Love, JOAN.

AMERICAN JEWS SUPPORT VIOLENCE

LONDON,— A spokesman for the **American League for a Free Palestine** said Foreign Secy. Ernest Bevin told leaders of the league Britain was maintaining large forces in the Middle East to meet a threat from Soviet Russia.

Johan J. Smertenko, vice president of the league, said at a press conference Mr. Bevin made his statement "off the record" at a meeting in the Foreign Office in London about a year ago.

Mr. Smertenko placed the league on record as "openly and candidly" supporting the violence and sabotage in Palestine by the Jewish underground.

The league is headed by Guy M. Gillette, former U. S. senator who is league president; Professor Fowler Harper, vice president and an executive board including Louis Bromfield, Ben Hecht, J. David Stern, Will Rogers, Jr., William S. Bennet and Andrew L. Somers.

The indictment of Douglas Stewart, former editor of THE COMMENTATOR Magazine, based on the testimony of German citizens brought back to the U. S., is the result of a vicious technique employed by O. John Rogge and his 'hidden-hand advisors'. It is known that German citizens live under such terror involving their lives and their families that they will testify to **anything** in order to give themselves a little protection or respite from the 'hangover' of the now defunct Morgenthau Plan.

WHY U. S. HAS MILITARY CONSCRIPTION

WASHINGTON,— A Congressioanl committee was told 19 shipbuilding companies, including five in the San Francisco area, grossed an estimated $356,006,612 in wartime profits on invested capital totaling $22,972,275.

One company was said to have earned $2,080,000 on a $600 capital investment.

The figures were set forth by the Maritime Commission in a report to the House merchant marine committee, which is investigating shipbuilding profits.

Among the companies is the Permanente Metals Corp., a Henry J. Kaiser firm which reportedly made an estimated profit of $58,840,885 on a $460,000 capital investment.

The St. John's Shipbuilding Corp. of Florida was said to have made an estimated profit of $2,080,000 on a $600 investment.

Lessing J. Rosenwald, President of the American Council for Judaism, is opposed to Zionism, but he insists that the U. S. instead of Palestine be made the homeland of the Jews. Jews are now entering the U. S. at the rate of about 1500 per day. This includes a conservative estimate of the combined legal (?) and illegal entries.

WASHINGTON "SEDITION" DISMISSAL APPEALED

WASHINGTON, D. C.,—The justice department has decided to appeal the dismissal of the mass sedition case to the appellate court.

Notices of its intention to appeal were filed with the clerks of the federal District court and the Appeals court. The justice department has 40 days in which to file the record of the case with the appellate court with its appeals brief.

Chief Justice Bolitha J. Laws of federal District court here ordered the government's sedition conspiracy indictments against the 42 defendants dismissed Dec. 2. He said in his order that the case had been in the courts so long that it would be a travesty on justice to permit it to drag on any longer.

"A THOUGHTFUL CHRISTMAS TO YOU"

Enclosed a dollar bill, a bit of gratitude for what you are doing in the name of Christ. My family and I thank you. Sincerely, Mrs. M. G.

BEELZEBUB DEPLORES "HATE"

ATLANTIC CITY, N. J.,—Henry Morgenthau Jr., former treasury secretary, said that for a world that was trying to make a permanent peace there was "too much hate between peoples, between countries, and between different economic and religious groups."

He said it was the responsibility of American Jews to "set an example for brotherliness" and to make sure that 250,000 homeless European Jews were not disappointed in their efforts to reach Palestine and to build homes there.

OUR GROUNDHOG WORLD

By Geo. Cartwright, Modesto, Calif.

ARGENTINE NAZI NEWS

How much truth is there in stories that Argentine, under the Peron government, is a haven of Nazis and Fascists? One answer to that question was given . . . by Juan C. Rodriguez, on his arrival here (Ottawa, Can.) to begin his job as new Argentine Ambassador to Canada.

His country, Rodriguez said, "is breaking up remnants of Nazism and Fascism, is a true democracy today with a free press and free people.

"Argentinians are behind Peron because they realize his government is progressive, democratic and positive."

"Stories to the contrary," he added, "are originated by the opposition, which uses them as a political weapon." —Labor, 11-30-1946.

COAL STRIKE

During first World War when U. S. government was taking tax pennies from children on soda water and ice cream, Pennsylvania coal fields doubled in value from $6 billions to $12 billions. Coal land is on the tax duplicate at wild land values, perhaps $5 an acre.

Mr. Schwab, Pres. U. S. Steel Corp'n valued 60,000 acres at $60,000 an acre—a small item of $3,600,000,000. When Coal miners strike for Land Rent for Revenue and not a Singletax in price of coal or other commodity to consumers, Labor's victory will be complete and permanent.

BUILDING

We are blind until we see
That in the universal plan
Nothing is worth the making
If it does not make the man.

Why build these cities glorious
If man unbuilded goes ?
In vain we build the world
Unles the builder also grows.

IMPERIALISM

"Labor," Washington, D. C., quotes, Richard H. S. Crossman, British Parliament Labor member: **"We British,** like the Portuguese, Spanish, Dutch and French, **grew great by conquering continents for the white man.**

"We grew rich by taking the LAND of backward peoples and using the dispossessed owners as cheap labor. Historically, every Western democracy is grounded on pillage and exploitation."

ZIONISTS HELP TERRORISTS OFFICIALLY

BASEL, Switzerland.—Rabbi A. H. Silver of Cleveland, O., a newly elected vice president of the World Zionist congress, told 2,000 persons attending the organization's 22nd meeting that **"we will continue to help the forces of resistance"** in Palestine.

What is a banker? A magician who lends you something he doesn't have.

C. A. R. E., another 'Morgenthau Racket' ?

In the early administration of Germany, shortly after V-E day, Gen. Patton was called down and so was Gen. Morgan of the UNRRA, because they were **too honest and too humane** in exposing the crimes of the Morgenthau plan and the conspiracy of certain Jews to use European misery for more profit.

Those Zionist organizations which want to embroil Russia and England **into a war over OIL** in the midde East, by juggling for the control of Palestine and the great mineral wealth in the Dead Sea deposits, worked out a nice scheme. By claiming Palestine as a homeland of Jews, they organized a well financed underground to produce pogroms in Poland, as they had hired Hitler to produce pogroms in Germany, and then the underground shipped Polish Jews into Palestine as refugees. Those poor victims of the Zionists never had any relationship to Palestine. They are genetically Asiatic Tartars who were converted to Judaism by a ruse when the Czars ordered all Tartars out of European Russia. The rabbis made a lot of money "accepting" poor Tartars into the synagogue and writing out certificates that they were Jews, not Mongols. But the Polish Jews are Mongols. Now the Zionists use them to populate Palestine and bring about disorders and a tug of war between England and Russia with Americans financing the Jews. Gen. Morgan exposed the conspiracy and La Guardia fired him.

Gen. Patton, too, was reprimanded for "going easy" on the Germans and shortly met his death, by accident or connivance. Thereafter US Generals became very jittery as soon as any Jewish paper in the USA criticized them that they were not brutal enough in carying out the Morgenthau plan of starvation and freezing.

But after the Taxpayer sent army "surplus" stores and foods, paid with our money; after the Morgenthau plan intentionally destroyed the ability of the German people to help themselves; suddenly "humanitarian" outfits spring up that are "willing" to help the poor starving people, **for a price!** The "surplus" which is already paid for, is sold to us again at $15 and now $10 a package, Guaranteed and "insured" delivery to given addresses or to others at the discretion of the "humanitarians".

CARE (Cooperative for American Remittances to Europe) a non-profit, corporation is one of the agencies that sends out concentrated surplus packages to "relieve" . . . either you of your money . . . or else relieve the recipients even of their lives. Starved people, dying people are unable to take nourishment in such concentrated form as contained in the "surplus" packages, even if they got them, which is not always the case. But why should American citizens **buy back their own paid-for property** for distribution among starving relatives. "Surplus" is tax-paid. The Morgenthau plan was inauguarated by the USA **to starve the Germans, THEN** the Jews who ran the Morgenthau plan & now run the "relief" organizations, charge us hard cash to buy our own properties back and feed it to those whom they deliberately have starved. And in the case of CARE, **it is called a non-profit corporation!**

DEVILISH KILLERS WITH "CONCENTRATED SURPLUS" KINDNESS

Dear Kosti:

To show you how the racket of the surplus "calories" is calculated to remove the shekels from the suckers while not giving real relief to the recipients of the CARE packages, I wish to remind you of an incident that is strongly imprinted on my memory.

In L. A., at 1930 Christmas time, a young girl steno. out of work for 2 weeks, finally found a job. With her first money she went to a famous Dutch Beanery and after a few mouthfulls of **baked beans** fell under the table — dead. **No digestive juices in her tummy** to digest the highly concentrated 50-50 starch protein in "baked Beans". **All the "Care" stuff was calculated by the US Army for young healthy lads under the rigors of hard work in the war.** Never for sick, underfed people, who have had less and less to eat for 18 months.

Scan the labels of the CARE cans and you'll see. It's a nice way to kill the Germans and others after they have been emaciated and a good way to get the shekels out of your pockets, too. Best wishes, EMK.

BALLARD VERDICT REVERSED

WASHINGTON,— The Supreme Court reversed the mail fraud convictions in Los Angeles against Mrs. Edna Ballard and her son, Donald, leaders of the "I Am", religious movement.

Justice William O. Douglas delivered the court's 5 to 4 opinion. It held the convictions should be set aside because women were excluded from the trial jury panel.

The Ballards originated the "I Am" movement in the thirties, conducting classes in different parts of the country as "divine messengers" of St. Germain, and selling books, magazines and phonograph records with avowed "radiation" or healing qualities.

After trial in Los Angeles in 1942 on a mail fraud indictment, Mrs. Ballard was sentenced to 30 days and a $400 fine. Both jail sentences were suspended and the two were placed on probation for a year.

The case first came before the high court in 1944.

SOAP FROM KOSHER BODIES

JERUSALEM,— German-made soap manufactured from fat rendered from Jewish corpses in crematoriums has been found among recently arrived immigrants from Europe presently confined in the Athlit clearance camp. They said that they had been given the soap, **the wrapper of which indicated its content,** while in UNRRA camps in Europe.

Chief Rabbi Isaac Herzog has cabled a protest to UNRRA Director-General Fiorello La Guardia, urging that all soap be sent to Palestine for burial. The soap found at Athlit will be interred with the traditional Jewish burial services on the Mount of Olives.

BIDDLE CONFESSES

Mr. Biddle's report to the President, recommending the drafting of a code of international criminal law, is a shameless document. It amounts to a confession by Biddle that the Nuernberg trials in which he sat as a judge were lawless proceedings, as, indeed, they were. If we could feel sure that Mr. Biddle had a conscience we would conclude that it was troubling him.

Mr. Truman has approved the Biddle recommendations and will pass them along to the United Nations for appropriate action. If the President gets his way he will have succeeded where his slave-holding forefathers failed in destroying the sovereignty of his country over its territory and the jurisdiction of its courts over its citizens.

The Nuernberg court made up its law as it went along. This fault Mr. Biddle and Mr. Truman now propose to remedy if they can.

Nuernberg has set a precedent which the world is likely to regret. From now on the victors can be expected to execute the leaders of the defeated enemy, whether they started the war or not. To accomplish this purpose the victors will feel free to set up a propaganda tribunal, authorized to make up its own law or to twist the proposed code to serve the same purpose.

The ease with which Tito's courts have convicted Gen. Mihailovich and Archbishop Stepinac should stand as a warning.

The more debased the victor, the more certain he will be to put his opponents on trial to establish their guilt and, therefore, his innocence. Nuernberg will serve as a precedent for all such abominations in the name of law and humanity. —Chicago Tribune.

Federal City

The Strange Case of "Columbians, Inc."

By WASHINGTON ADAMS

WASHINGTON, Dec. 14 (Special)—The Red papers of the East have been greatly disturbed by a strange crackpot outfit in Atlanta, Ga., known as "Columbians, Inc.", organized as a "hate" group with the aim ultimately of driving Negroes and Jews out of America or liquidating them.

Its two leaders, Homer L. Loomis, Jr., and Emory Burke, both young New Yorkers, by birth or residence, thought they saw an opportunity in the State of Georgia to start a great national movement to save the Anglo-Saxon civilization of America from extinction at the hands of Jews and Negroes.

Like many other Northern "carpet-baggers", they reckoned without their host and sadly misjudged the Georgia people; with the result that they find themselves in serious trouble, arrested, under heavy bail, and facing possibly serious indictments for crimes that may cause them to serve long years of imprisonment or service on that State's chain-gangs, which are far from strawberries.

I state it as a fact, based on my own experience of close to one year's residence in and travel over Georgia, THAT THE GEORGIA PEOPLE DO NOT **HATE** THEIR NEGRO PEOPLE. Indeed, it would seem that, on the whole, the Georgians esteem Negroes more highly than New Yorkers or Washingtonians do.

Like most Northerners, the Georgians prefer that Negroes live to themselves, since their ingress into a white neighborhood anywhere in America has a tendency to pull down the community and CAUSE WHITE PEOPLE TO MOVE OUT.

I am convinced that, if the people of New York State were given a referendum on the subject of RACIAL SEGREGATION, they would VOTE FOR IT. The people of Georgia know in their hearts that segregation is a partial solution of the Negro problem, as Lincoln advocated; and many believe with both Jefferson and Lincoln that colonization in Africa is the ultimate and final necessity if America is to escape NEGROIDIZATION and racial and political decay.

Strange to say, much of Georgia and some other Southern States are so heavily dependent upon Negroes for all sorts of labor that they would regard the emigration of all their Negroes as an economic calamity, and would resist such an attempt on the part of carpetbaggers by drastic measures and possibly lynching of the "baggers".

For years Georgia has had on its lawbooks a statute requiring a license fee of $1,000 to be paid by any agent soliciting the emigration of Georgia citizens and laborers to other States. I had a friend, who, for his own use, was moving, in heavy vans, two families of Georgia Negroes to one of the Carolinas to be tenants on his farm, when he was arrested near the classic university city of Athens, Ga., was taken back to the nearby county where the Negroes lived, was lodged in jail incommunicado for several days and had to pay $3,000 to get free, besides losing his Negro migrants.

I do not believe in trying a case in the newspapers, but if what is being revealed about these poor misguided youths is true, they face years of imprisoment.

Neither Hitler nor the Ku Klux Klan started out with a violent hatred of minorities. No organization can be a success based on HATE, murder and other illegalities. Hitler's "Mein Kampf" had no such hatred of Jews—at that time he only advocated taking them from control of Germanys' political and economic life. The Klan's books do not advocate violence, although the order's disguises permitted evil elements to use violence against those whom they deemed lawbreakers or enemies.

The "Columbian" boys were very dumb, also. They permitted a blonde New York Jewess, Miss Renee Fruchtbaum, 24 years old, of 377 Montgomery St., Brooklyn, a spy for the notorious red Anti-Nazi League, to become their secretary, using the name Forrest, and another League spy, Mario Buzzi, to gain their confidence, and these agents, so they claim, by means of fountain pen and cigaret lighter cameras photographed around 200 secret documents, besides inveigling two of the boy adherents to turn State's evidence. **The agents claim to have found the person who delivered to the Columbians the dynamite with which a certain Negro's house was blown up.**

The Anti-Nazi League is chiefly composed of refugees and scared Jews all over America, who support it with millions. The League has a file on every prominent Anti-Red in the nation, such as Editor McCormick, Upton Close and thousands of others.

CHRISTMAS SPIRIT

In sharing your Christmas generosity with your fellow-pro-Americans, I hope and pray that you will not neglect the editor of "The Broom", whose unselfish service and needs are both great.

Give him all you can afford; and, if after figuring that out, you find room for an additional gift, why not add a few $$ for this writer, whose needs to carry on propaganda work with the new Congress will be great.

Just enclose that extra item with your kind remittance to Brother de Aryan, stating it is for "ADAMS AND AMERICANISM".

I shall send you an appropriate acknowledgement and some worth while literature, along with my sincerest gratitude and most cordial affection.

May God bless each and every one of my dear readers this Christmas season of "peace on earth, good will to men!"

Judge Brink's Absurdities in "Fraud" Decisions

LOS ANGELES, Dec. 12,—I had returned from San Francisco where I had listened to arguments of opposing counsel on two very important cases. One a matter of exclusion of Mexican children from schools frequented by whites, the other on the sedition cases of members of Mankind United; both before the U. S. Circuit Court of Appeals. My intention had been to catch the 11:30 A. M. Santa Fe train for San Diego and since I had an hour to spare I passed the time away by attending the 10 A. M. session in Referee Brink's court on the case of Christ's Church of the Golden Rule. As soon as the referee read the docket I realized that it was too important to leave and so postponed my return to San Diego for the next morning.

The important issue came up in due course thru the instrumentality of Attorney Howard Crittenden who appeared for George Patrick, a plumber, in a petition that the decision rendered in the White case against Bell apply in his case as well, even though Patrick did not allege that Bell deliberately defrauded him out of many truck loads of plumbing materials, tools and supplies which Patrick had shipped to Oregon to be used in the construction of buildings for a children's and student's training institute of the Church.

Patrick claimed that the Church had now no title to the materials that were stacked in warehouses on Church property in Oregon, because before they could be used in new church buildings the state of California had taken possession of the Church and stopped the building program. He demanded return of his property.

Referee Brink ruled that Patrick had become a member of the Church, had dedicated his property to the Church when he shipped it to Oregon. Therefore, the state of California, and later the Trustees for the bankrupt estate of the Church, took title to the property of the Church and could sell it to satisfy creditors.

Patrick denied being a member, because according to the ecclesiastical rules of the Church he had not undergone the necessary training, had not been examined on his qualifications and was not formally admitted. Also he yet claimed to hold title to his property because he had never donated it for the use of the state of California, nor for the use of the Trustees to pay bills of the Church, but **solely for incorporating it in new buildings FOR RELIGIOUS TRAINING PURPOSES.**

The Referee denied all claims of Patrick and then Patrick started out on a new tack. He argued, thru his attorney Crittenden, that Brink had ruled in the White case against Bell, that the Whites had been defrauded by Bell in that they were given to understand that they were entering into a contract with Bell, with Mankind United, with Christ's Church of the Golden Rule, to receive certain benefits upon relinquishing their property to the Church. That Bell did not deliver the advantages enumerated, hence, on grounds of fraud the Whites were entitled to recover their property **ahead of claims of creditors.**

"Now," said Patrick, "the **same representations were made to me by Bell, your Honor said they were fraudulent, which I had no means of knowing, neither am I an expert at detecting fraud, but your Honor claims to be such an expert. THEREFORE I request that you give me my property back as you did give it to the Whites."**

And here enters the absurdity. The Referee ruled that Patrick is not entitled to receive his property back because Patrick does not charge Bell with fraud, **but accepts Brink's word for it.** Brink disqualifies himself as an expert on fraud and says that **as long as Patrick does not think** it was a fraud, then it is not. But because **the Whites think it was a fraud, that makes it so!**

In other words: Referee Brink rules that Bell was paying the Whites in counterfeit coin, hence the deal was no good and the Whites get their property back in kind. The fact that Bell, was paying Patrick in the same coin does not entitle him to recover **as long as Patrick took only Brink's word for it that it was counterfeit,** but did not enter court to prove it was counterfeit. And Patrick says, "how should I know, I thought you were the judge who knew a fraud when he saw one. You said so, didn't you?"

U. N. "Home" Appropriately In Rockefeller's Jew York

Even the blind would see now what the whole U. N. **really IS !**

John D. Rockefeller, Jr. has offered a "home" to the Devil's own. And the city of Jew York matches the offer of land. Of course!

The U. N. from the beginning was hatched by Rockefeller and his buddies in the Sanhedrin. **They are the ones who run the whole shebang.** Anytime the fool suckers in America **imagine that the U. N. presages peace and prosperity for the common people,** all they have to do is look at who gave the new **international Conspiracy** it's "home".

The U. N. has been conceived and handled by the super-plutocrats, by the super-cartel, by the SANHEDRIN, an atheistic combination of religious hypocrites who live off the blood and the slavery of mankind. John D. Rockefeller, Jr. and Bernard Baruch head that sanctimonious monster that spews forth platitudes, but they **never dared open their conclave with prayer to Almighty God.** They are the Devil's own and America is doomed to unthinkable suffering for becoming a party to this Conspiracy which will not only not produce peace but divides the world among the oil barons and their banksters, followed by a war the like of which has never been seen yet.

Bernard Baruch is urging President Truman to appoint his brother, Herman Baruch, as Ambassador to England. Herman is now U. S. envoy to Portugal.—Drew Pearson.

Winter-Sonnen-Wende

Dear Sir:

The enclosed $10 are intended for a Christmas gift to you. Gladly do I contribute my mite to keep THE BROOM alive.

Soon the Christmas bells will toll over hill and dale to announce the winter solsticium (Winter-Sonnen-Wende)—the feast of my Germanic forebears.

How petty appears to me the reading of mass in the Papal camp for a man-child, Jesus Christ or the birthday feast of the evangelical Man. Simply behold how they tear their mouths wide open shouting their Christmas carols! Even yesterday did they sing. **But today they are ready with bayonet of blue steel to stick their "Christian" brothers EVERYWHERE IN THE WORLD,** according to the Atlantic Charter Gospel of the "Christian" prophets: FDR and Churchill, **wherever they may meet them in the manhunt.** Closely followed by the auxiliary girls to pick up the dead and the wounded. The General pins colored ribbons with coins on their chests as a reward.

What irony! What raillery to even sing: "Onward **Christian** soldiers, marching as to war, with the **Cross of Jesus** marching on before!"

It is the height, the climax of hypocrisy.

They may take everything away from me, but my Germanic faith, the belief of my ancestors shall never die in my chest.

Let's go to the Winter-Sonnen-Wende !

Sincerely, W. M. KRETZSCHMAR.

To greet you at Christmas and to wish you every happiness in the New Year.

I know your good work will be rewarded many times. It is men of your kind that are going to enjoy the fruits of your hard work from now on. Thanks for doing such good work for my people in Germany. They will know of you and your kind deeds and reward you some day.

L. L. REINHART.

Oppression Legalized

Mr. Rockefeller of Wall street is offering the United Nations a little matter of 8½ million dollars' worth of land in New York City for the permanent headquarters of the organization. Mr. Dulles, also of Wall street, is largely responsible for the drafting of the trusteeship agreements now in process of approval for the government of certain so-called backward peoples.

There's gold in them hills and perhaps some oil too; and who knows it better than the boys with the big bank rolls? We have long suspected that there is more to U. N. than noble ideals. The organization, for example, can lend an air of sanctity to the looting and plundering of oppressed peoples, all in the name of peace, friendship, and the higher brotherhood.

Any one who desires legal sanction for exploiting brown and black men, and the natural resources that belong to them, can get what he wants from U. N., if he knows how to go about it. Some may think they do.—Chicago Tribune.

Free These Men

A strife-weary majority of Americans welcome the dismissal of the "mass sedition" case at Washington. Whatever the law of the case may be, whatever the possible guilt of some of the screwball defendants, people are just tired of that kind of thing.

The Department of Justice will do well to accept the judge's act as final.

The "mass sedition" case is only one item overdue in history's ash can.

Over a year ago Army boards of review were established to re-examine cases of men convicted by courts-martial. But some men are still imprisoned, although not guilty of the kind of offenses that would be punishable under civil law.

They have already served long enough to uphold military discipline in forces recruited since the war.

Conscientious objectors are held also in captivity.

Why does President Truman delay proclamation of a blanket amnesty for all prisoners who would be free under standards of civil law?

—Chicago Daily News.

HOW IT WOULD WORK OUT FREE

Just for devilment I got Paul Beck, the city's rate expert, to ask his slide-rule how much it would cost to give San Franciscans the same car service they're getting now—only give it to them for free like sewers and sidewalks.

The slide-rule says it would cost 17 million dollars a year or around $2.15 in the tax rate. Thus the ordinary home owner whose hearth and mortgage are assessed at around $3000, would pay $64 a year. That would also cover his wife and children. He now pays around $61—plus carfare for the family.

It's hard to believe that we now pay $272,000 a month to conductors— just to collect those nickels. For another two million a year — which we spend now — they could be turned into vehicle operators who provided transportation instead of fiscal services. It would be easy to get new vehicles, because there's an edge in the present outlay for depression and accidents that could just about support a 20 million dollar bond issue.

However, the big money the city might save would be in such items as substituting shuttle trains on Market-st for a proposed subway that will cost, eventually, little less than 20 millions. That's more than 10 years of free service.

The big advantage would be something more than faster and more frequent transportation. Free mass transit is the only known solution to the traffic problem—the one thing that will reduce the number of automobiles in these streets.

—Arthur Caylor.
